
ACKNOWLEDGMENTS

The authors of this report thank the United States Environmental Protection Agency (US EPA), the University of North Carolina at Charlotte, and the Charlotte-Mecklenburg Utilities (CMU) of North Carolina for their support of this study.

Special thanks to Mr. Lam Lim (retired) of the EPA for supporting an earlier version of the study proposal on the topic of quantifying the impact of SSO factors. The authors also thank Mr. Kevin Weiss and Mr. Baron Benroth of the EPA for their support and many useful discussions during the study.
